TRV-MAX

1 Assemble the telescopic uprights and the feet using the supplied screws and screwdriver.

2 Align mounting holes to face the flat sides of the feet.

3 Assemble the top and bottom poles respectively. Top and bottom poles can be identified by stickers near shaped ends.

4 Slide the graphic over the loose ends of top and bottom poles as shown above. Please get the holes for central uprights ends as shown above ready before graphic application. Recommended hole size: ϕ 26-30mm.

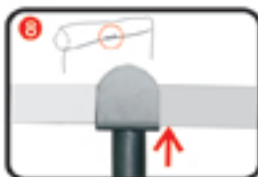

5 Attach the top pole to one of the upright as shown above, tighten up the thumb screw.

6 Tighten up the thumb screw to make sure the top and bottom poles are securely assembled.

7 Adjust the height of the telescopic uprights to get good lenson of the graphic.

8 Stretch the central upright to the same height as graphic, insert the top supporter into the hole as shown above to hold the top pole.

9 Insert the bottom supporter of central upright into the bottom hole of graphic as shown above to hold the bottom pole, tighten up the thumb screw.

10 Finished.
